Imagine a world where your money doesn't just sit in the bank but works tirelessly, generating profits for you every day. That's what AADEX brings - Installment ADE - Smarter investments.

We understand that you've worked hard to save your money. You want to invest, but the stock market is too volatile, real estate requires significant capital, and bank interest rates don't keep up with inflation. AADEX provides a new solution - safe, transparent, and profitable.

This is an exciting idea for an installment lending project with AADEX acting as the intermediary.

With AADEX's Installment, you become your bank. You lend money without worrying about vetting borrowers or debt collection. We take care of all that for you. Each

borrower is thoroughly screened to ensure their ability to repay.

What's the most special part? You receive interest and principal payments every day. Imagine waking up every morning, opening the app, and seeing your account balance increase. It's not a dream, but a reality with our platform.

Among the myriad of project options to collaborate with, we believe that with transparency in cash flow and legality, AADEX will be a strong candidate for sustainable income potential and interest rates for investors and partners

# — Core Team —

We believe that having a good team is the foundation for success. A team with a shared vision and goal helps AADEX go further and faster. AADEX is a place that brings together many leading executives and top experts in the field of financial investment. They possess extensive experience and practical skills that have been honed over many years. AADEX is proud to be guided and oriented by this team

## **Mr. James Nzioka Kalima**

*The Chief of Marketing of the  
Latin America Area*

He is an expert in the field of real estate investment and one of the first individuals to pursue real estate transactions using crypto. He has 8 years of experience in buying, selling, and managing digital assets in Shanghai. He recognizes the potential in AADEX's model and aims to enhance AADEX's reputation in the vast Chinese market.

## **Mr. Brook Austin**

*Global Chief of Marketing*

He oversees digital solution strategy and marketing campaigns. He had 8 years of experience working in the investment and financial areas in Singapore where he was in charge of how the product was released to the market and the reaction of users, and communities.

# — Core Team —

## **Mr. Jimmy Howard**

*Market Volatility Analyst*

With a Bachelor of Information Technology (BIT) degree, he has a passion for trend analysis and measuring economic development through algorithms and functions. Crypto and Securities are the two fields he is most dedicated to studying due to their volatility and risk, but also their potential for significant profits. Before joining AADEX, he spent 8 years at T. Rowe Price, where he was responsible for developing new investment strategies.

## **Mr. Stanley Arlo Holmes**

*Expert in Sustainability and Public Relations*

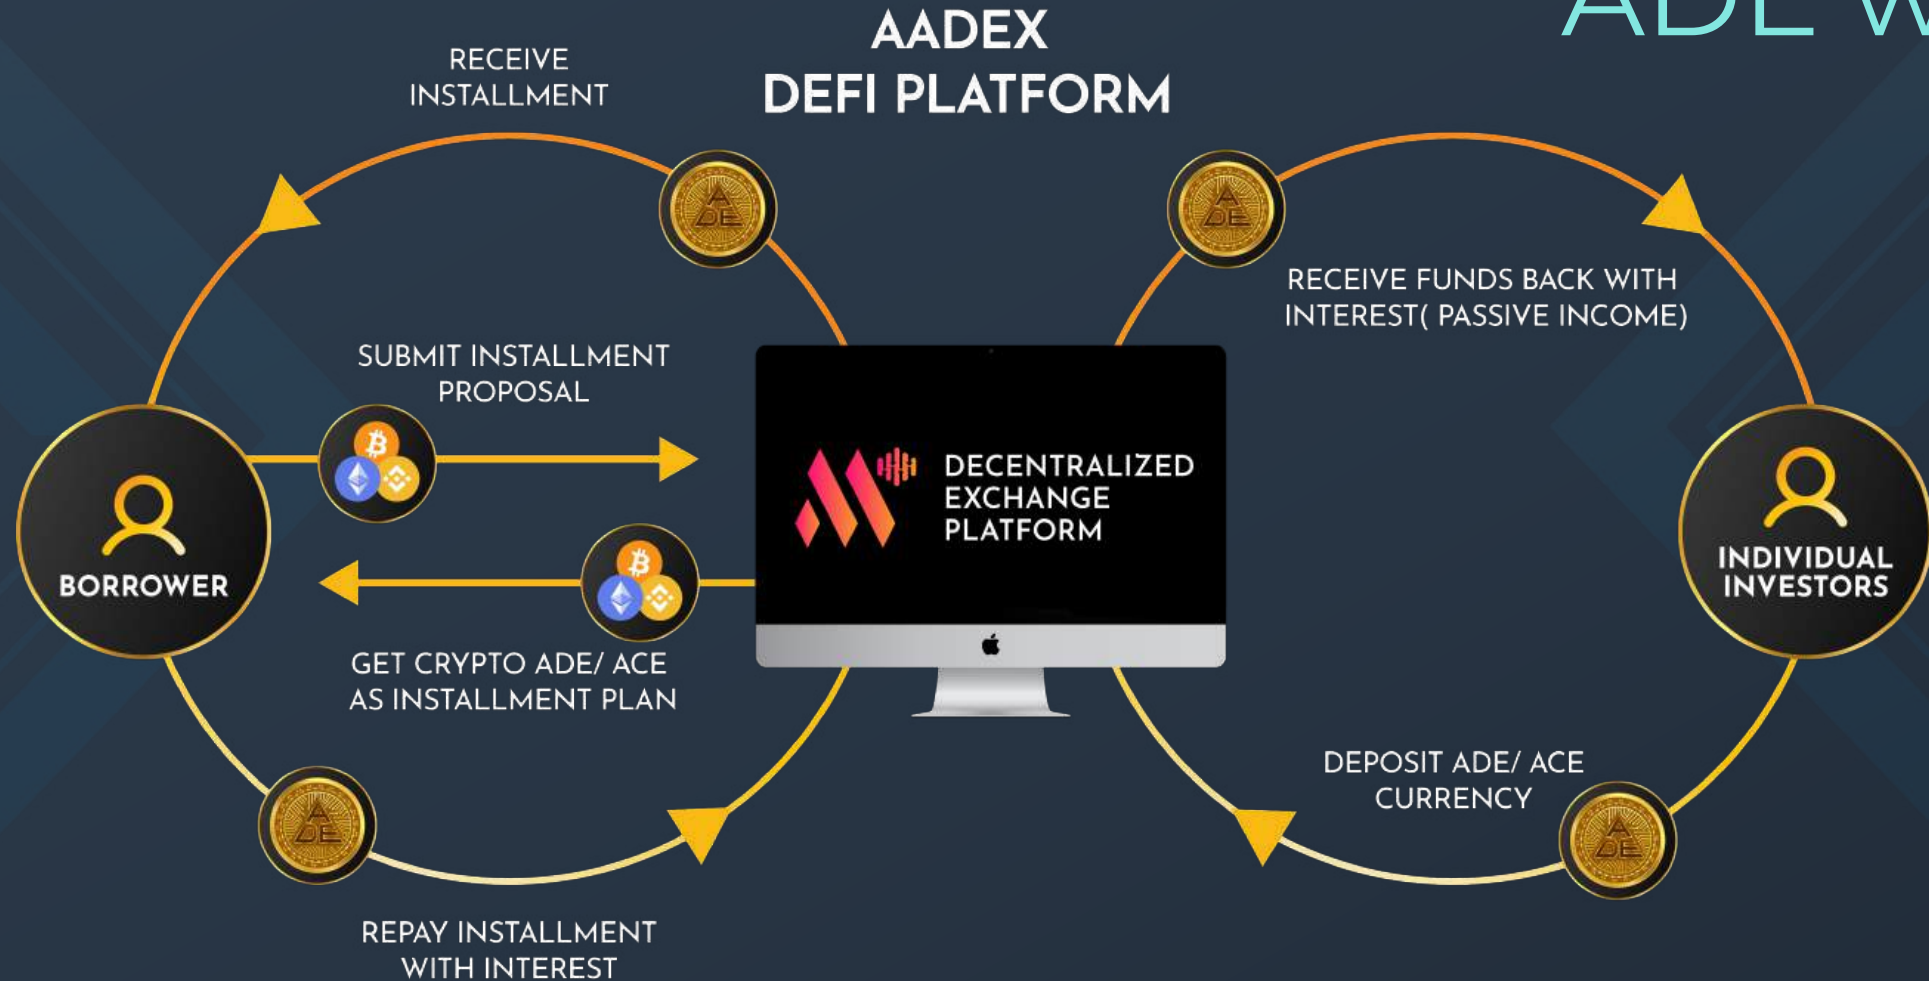

He is a leading expert in sustainability and public relations within the crypto market. With over 8 years of experience, he has made significant contributions to developing and promoting sustainable initiatives in the blockchain industry. Prior to collaborating with AADEX, he worked with T. Rowe Price in the areas of communications and partnerships

## **Mrs. Vivienne Lee**

*The Chief of Financial*

She is a seasoned financial expert with over 12 years of experience in finance and technology, particularly in the crypto market. She previously led investment fund development in Cyprus before joining the leadership team at AADEX.

# How does Installment ADE work

*\*Please refer to this diagram to understand how our Installment ADE works.*

# — The operational model can be summarized in the following 3 steps

01

Investors will deposit tokens into the AADDEX system.

02

AADEX records the deposits and waits for loan requests from borrowers.

03

Borrowers will submit loan requests according to AADDEX procedures.

AADEX will require borrowers to deposit a fiat amount as collateral. This amount will be used to pay interest to investors in the necessary stages and will be returned to the borrower when they complete their loan cycle.

After that, AADDEX will post the loan on the system and use AI tools to analyze the loan and find suitable investors for lending.

AADEX will manage existing loans and regularly check the repayment status of borrowers to ensure funds are returned on time to maintain interest payments for investors

Simplifying the operational process helps all partners clearly understand their roles, allowing them to focus their efforts on completing the work as smoothly as possible.

# The Interaction Process

---

# The Interaction Process

A

## Borrower Assessment

- AADEX builds a credit evaluation system.
- Collect and verify borrower information.
- Categorize borrowers by risk level.

B

## Installment Posting

- Borrowers register for loans (amount, term, purpose).
- AADEX reviews and posts the information on the platform.

C

## Connecting with Investors

- Investors review the loans.
- Choose to invest based on their desired risk level.
- Can allocate funds to multiple loans.

D

## Management

- ADEX manages disbursement and debt collection.
- Monitor borrowers' repayment progress.
- Handle any arising issues.

## Connecting with Investors

- Borrowers: Easier access to capital.
- Investors: New investment opportunities with higher returns than savings accounts.
- AADEX: Service fees and the development of a financial ecosystem.

# The Cutting Edge of Installment ADE Model

---

## Speed and Convenience

Installment ADE offers a faster and simpler loan process compared to traditional banks. While banks may take several weeks to approve a loan, we can complete the process in just a few days or even hours, thanks to advanced credit evaluation technology.

## Flexible Loan Formats

We diversify loan types to accommodate both sides, accelerating the negotiation process and streamlining loan procedures.

## Flexible Approval Criteria

We approve loans based on multiple factors rather than just credit scores. ADEX provides a comprehensive assessment of financial status, business potential, personnel factors, and other elements, allowing us to approve certain special cases that traditional banks might decline.

# The Cutting Edge of Installment ADE Model

---

## Respect for Small and Short-Term Loans

Banks are reluctant to offer small or short-term loans due to high operational costs. AADDEX leverages AI technology to identify and manage loan portfolios across different timeframes, reducing processing costs to meet the short-term capital needs of small businesses.

## Flexible Repayment Models

We offer daily repayment models, making it easier for borrowers to manage cash flow compared to large monthly payments required by traditional banks.

## Personalized Support

AADEX not only provides capital but also accompanies borrowers throughout the process. We offer continuous consulting and guidance, creating a closer relationship with borrowers than traditional institutions.

# The Cutting Edge of Installment ADE Model

---

## Expanded Service Reach

Many individuals and small businesses lack sufficient credit history or collateral to secure loans, often due to limited knowledge of borrowing or concerns about complex bank procedures. Apollocaps provide these opportunities, offering continuous support and facilitating quick access to loans, helping to drive business growth and economic development.

## Technology and User Experience

Our platform is fully online, and user-friendly from loan application and funding to disbursement and repayment. This is particularly appealing to millennials and Gen Z, who are accustomed to digital solutions.

## Key Factors

- Accurate credit evaluation system
- Effective risk management
- Transparent information
- Data security
- Compliance with peer-to-peer lending regulations

## Supporting Technology

- Online lending platform
- Big Data and AI in Credit Evaluation
- Blockchain for transparency

## Why did we create the new ADE token?

- Our ambition is to build a strong AADDEX like Pancakeswap and have unique differences from Pancakeswap to establish a market position
- Profit generated from AADDEX will be used for the system development and Increase the ADE coin value
- The ADE coin is the token of the AADDEX ecosystem, playing a role similar to the Cake coin of the Pancakeswap exchange.

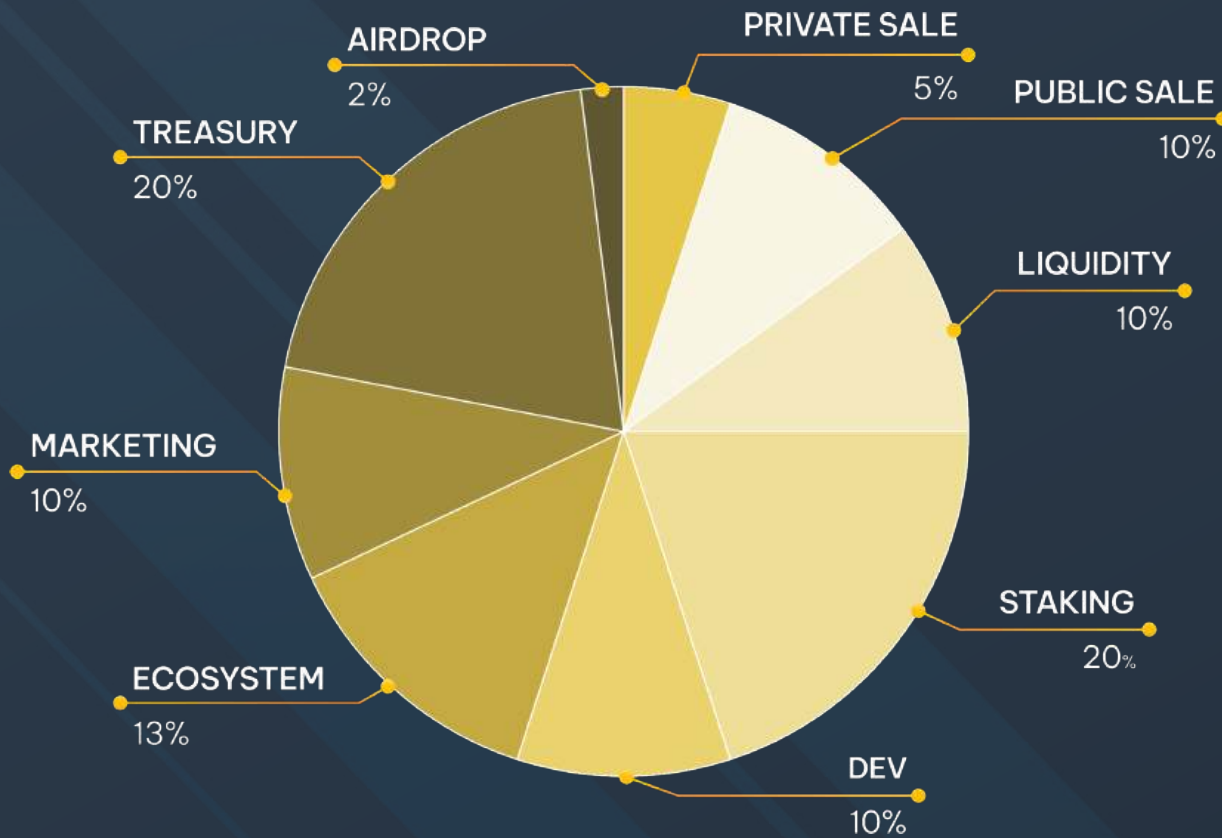

### By looking at the above chart

The new AADDEX product, Installment ADE, will attract more new investors with its appealing form and sustainable interest rates.

This increases the ADE liquidity pool and the company's profits. The company will use this money to support the ADE price and develop other products in the AADDEX ecosystem.

# ADE Tokenomic

Tokenomic		10.000.000	
Type	%	Value	
Private sale	5%	500.000	Vesting 15% after Public sale, next 2 days 50% of the remainder of the Private Sale in tokens can be sent each day

Treasury	20%	2.000.000	Lock 3 months, Cycle 1 month, 20% next each months
Airdrop	2%	200.000	Lock 2 months

# Our Commitment

---

## This is how the ADE token is allocated.

When the exchange operates well and the number of members participating in trading is large, this will cause the ADE price to rise.

With the new ecosystem, we completely use third-party PinkSale to complete money flow control and contract control. We commit to the community about 100% Defi conversion and 100% transparency of money flow. We are completing KYC and auditing with our partner SaFu for the exchange contract.

With this large strategy, we are confident that it is the best solution to attract new communities to join the ecosystem.

ADE

# Our Commitment

---

## For Investors/Lenders

**INVESTOR**

We don't just provide an investment; we create a community. You are helping small businesses grow and supporting individuals in achieving their dreams. Every dollar you invest not only brings you returns but also contributes to creating success stories. You have complete control over your lending or borrowing activities. All deposit and withdrawal requests are handled with just a single touch, thanks to our user-friendly interface and 24/7 customer support team. With Installment ADE from AADDEX, your money not only earns profit but also positively impacts society and the community.

# Our Commitment

---

## For Borrowers

Installment ADE helps individuals and small businesses access capital quickly with simple procedures, ensuring no delays in business development. Installment ADE is a gateway to opportunity, providing businesses and organizations with the most favorable conditions for growth. It offers a solid foundation for managing borrowed funds, along with support for tools, expertise, and resolving any arising issues to assist borrowers. Join and experience the future of investing with AADEX—where technology meets finance and where profit meets purpose.

# Transparent

- The contract was created by Safu - Pinksale Partner

- Partner of Pinksale

- The contract was managed by Safu

- Audit/ KYC by all nominated organizations: Cyberscope, blockSAFU

A D E

# Transparent

---

We would like to emphasize that AADDEX and our product Installment ACE prioritize transparency, which is demonstrated in the following ways

Our contracts are written by experts from Safu, the number one KYC/Audit partner of the PinkSale platform. The contracts will be managed by the Safu team, ensuring that all cash flows and transaction histories are always transparently disclosed to investors and reported with accompanying documents. As you know, contracts are likened to the backbone of a project and are usually coded by the project's IT team for security purposes and to increase benefits for the development team. At AADDEX, we prioritize customer benefits and transparency in the use and management of funds. We want to make this public to investors to increase trust and establish a solid position in the crypto market as well as with our customers. AADDEX also undergoes rigorous KYC/Audit processes from well-known audit partners such as BlockSafu and Cyberscope, helping to increase AADDEX's credibility and create favorable conditions for partners when choosing AADDEX to develop their business. We are also a partner of PinkSale, one of the leading platforms for incubating promising crypto projects. PinkSale will support us in our marketing strategies to expand our customer base soon .

All these unique features will undoubtedly satisfy investors and serve as a solid foundation for brokers to develop their businesses. Join us in partnering with AADDEX.
